RELAX IN STYLE

Deshabillé (pronounced dez-ha-bee-ay), purveyors of luxury lounge and sleepwear, have developed a range of beautiful yet practical garments to relax in at home and beyond ... should a quick trip to the corner store for milk arise.

A fabulous French word that sums up all that is right with life, Deshabillé alternately means "informal dress", "casual or lounge attire", or even the more naughty – "to undress".

Created by designer Roslyn Bellerby, Deshabillé offers equal doses of quality, fashion and comfort for both men and women. Some of the prints in the range have been specifically developed with artists and they are all an original, refreshing change from traditional (often kitsch) sleepwear prints.

The women's range includes classic basics like fitted tanks with built-in bra shelf and tracksuits that you can be seen in outside the house! The men's range is simple and masculine with an earthy, tropical vibe – with classic stripes, bold graphic prints – all in fresh summer colours.

Deshabillé is available exclusively online from www.deshabille.com.au.
